

Arjun Sharma

Karnal, Haryana, IN | arjun251898@gmail.com | +91 7027241898 | [GitHub](#) | [LeetCode](#) | [Portfolio](#) | [LinkedIn](#)

Computer Science undergraduate with hands-on experience in full-stack web development, Data Structures & Algorithms, and the MERN stack. Passionate about building scalable software solutions, solving algorithmic problems, and developing real-world applications using modern technologies. Seeking Software Engineering internship/job opportunities.

EDUCATION

Chitkara University

Bachelor of Engineering in Computer Science and Engineering

– CGPA: **8.82 / 10**

Rajpura, Punjab, IN

Expected May 2028

EXPERIENCE

Web Development Intern | SkillOrbit

Mar 2026 – Apr 2026

Remote

- Completed a structured full-stack web development program covering HTML, CSS, JavaScript, and React on the front end, and Node.js/Express fundamentals on the back end.
- Built functional UI components, RESTful routes, and small-scale full-stack projects, practicing Git-based version control throughout.

PROJECTS

SkillLens AI | *React, Node.js, Express.js, MongoDB, JWT* | [GitHub](#)

- Designing an AI-powered interview preparation platform covering resume analysis, HR/technical mock interviews, coding practice, and personalized feedback across a modular full-stack architecture.
- Architecting secure REST APIs with JWT-based authentication and MongoDB data models to support scalable user analytics and session tracking.

FlexStore DB | *Node.js, Express.js, JavaScript, HTML, CSS* | [GitHub](#)

- Building a lightweight, NoSQL-inspired database manager supporting full CRUD operations, dynamic schema definition, keyword search, and JSON-based persistence without an external database dependency.
- Engineering authentication, dark mode, and flexible document-style record management to mimic core features of production NoSQL tools.

Portfolio Website | *React, Vite, TypeScript* | [GitHub](#) | [Live](#)

- Developed and deployed a live, responsive portfolio site showcasing projects, technical skills, certifications, and achievements, built with a type-safe React and Vite stack.
- Integrated the GitHub API with client-side caching to dynamically display real-time repository data, and deployed the application on Vercel with CI-based redeployment.

Software Engineering Journal | *Technical Blog*

- Writing technical articles on the MERN stack, authentication systems, REST API design, and system design fundamentals to reinforce and share full-stack development knowledge.
- Documenting project case studies and implementation guides covering real-world architecture decisions and best practices.

CERTIFICATIONS

- Cybersecurity for Everyone — Coursera
- Introduction to Blockchain Technologies — Coursera
- Data Visualisation: Empowering Business with Effective Insights — Tata (Forage)
- AI and Disaster Management — DeepLearning.AI

TECHNICAL SKILLS

Languages: Java, C++, C, Python, JavaScript, TypeScript

Frontend: React, HTML, CSS, Vite

Backend: Node.js, Express.js, Spring Boot, REST APIs, JWT

Databases: MongoDB, MySQL

Core CS: DSA, OOP, DBMS, OS, CN, System Design

Tools: Git, GitHub, Linux, VS Code, Postman, Vercel
